THE WELSH BULB FIELDS

ST. ASAPH, FLINTSHIRE
— AND —
HOLLAND ARMS, ANGLESEY
—
1927

“ He that hath two cakes of bread let him sell one
“ of them for some flowers of the Narcissus, for bread
“ is food for the body but Narcissus is food for the
“ soul.”—

MAHOMET.

THE WELSH BULB FIELDS

Telephone : 47 St. Asaph.

Telegrams : Watts, Bryn, St. Asaph.

THE BULB FIELDS

at St. Asaph are within two minutes walk of St. Asaph Station, and the Bulb Fields in Anglesey are close to Holland Arms Station, and on the Main Road to Holyhead.

VISITORS are welcome. The Daffodils are generally at their best about the middle of April and the Tulips early in May.

THE WELSH DAFFODILS

have carried off many Cups, Championship and other Medals and Prizes at the Royal Horticultural and the Midland Daffodil Societies' Shows, and in 1925 they were awarded the

GOLD MEDAL

At The International Show in
HOLLAND.

THE WELSH TULIPS

have been awarded several Silver-Gilt Medals and a Silver Cup by the Royal Horticultural Society.

The following are cuttings from two of the leading Horticultural papers, describing an Exhibit of the Welsh Tulips at the Vincent Hall :—

"The Exhibit was magnificent . . . Seldom has a more imposing display of cut blooms been seen in the Hall."—*The Gardener's Chronicle*.

"A superb exhibit occupying nearly the whole of one end of the Hall . . . There were nearly sixty varieties, all beyond criticism."—*The Journal of Horticulture*.

This List contains a selection of the Best Daffodils and Tulips in cultivation, and there are many more named varieties of Daffodils growing on the Welsh Bulb Fields besides a host of choice Welsh-raised seedlings, a number of the best of the famous Red Cupped Narcissi raised by the late Mrs. R. O. Backhouse, and many of the newest Darwin and Cottage Tulips.

CUT FLOWERS

are supplied during the season at 5/—, 10/— and 20/— **per box**, including box and carriage. Being cut and despatched straight from the fields, they last a long time in water.

What more acceptable gift could you send to a friend than a box of choice Flowers in the Spring, or a few Bulbs in the Autumn ?

W. A. WATTS, F.R.H.S.,

St. Asaph, N. Wales.

Royal Horticultural Society's

CLASSIFICATION OF DAFFODILS

WATTS' GIANT POLYANTHUS-PRIMROSES.

*As supplied to H.M. Office of Works for
the Royal Gardens and the London Parks.*

FIRST CLASS CERTIFICATE **NATIONAL AURICULA & PRIMULA SOCIETY.**

These lovely Spring Flowers, so fragrant, so easily grown, and coming into bloom at a time when hardy flowers are scarce, should be in every garden ; they are invaluable for bedding, for borders and shrubberies, and for cutting. This strain is the result of years of careful selection and cross fertilization.

The seeds may be sown at any time in the Spring or Summer, but early sowing is necessary if plants are to flower the following Spring. The little seedlings, which should appear in about three weeks from the time the seed is sown, may be pricked out as soon as they are large enough to handle, and in due time planted where they are to flower ; they will grow in almost any soil or situation, but do best in a good loamy soil deeply worked and well prepared, where they are sheltered from rough winds in Winter and from too much sun in Summer. If left undisturbed for two or three years, they make a glorious show.
